### BIBLIOGRAPHY ON FLOOD CONTROL

Compiled by Dorothy Graf, Librarian,  
Bureau of Agricultural Engineering

1935

USDA  
LIB

- Anonymous.-      Blasting channels for flood control.    Manufacturers Record  
                         v. 102. p. 46. April, 1933
- Civil engineers consider Mississippi floods.    Engineering  
                         News Record. v. 99. p. 636 - 9. October 20, 1927
- Encroaching on our streams.    Ohio Farmer. v. 137  
                         p. 400. March 11, 1916
- Flood control by reforestation in Mississippi.    Science  
                         n. s. v. 66. p. 146 - 7. August 12, 1927
- How the farmer can avert the danger of floods.    Current  
                         Opinion. v. 62. p. 61. January, 1917
- Important factors in flood control.    Agricultural  
                         Engineering. v. 8. p. 160. June, 1927
- Land drainage; observations on the effects of lowering  
                         the level of a river.    Scottish Journal of Agriculture  
                         v. 17. p. 310 - 13. July, 1934
- Alvord, J. W. and Burdick, C. B.-    Relief from floods; fundamentals of  
                         flood prevention, flood protection and the means for  
                         determining proper remedies.    New York, McGraw-Hill  
                         book company, Inc., 1918. 175 p.
- Beman, L. T.-      Flood control.    New York, H. W. Wilson co., 1928. 162 p.
- Bennett, H. H.-    National program of soil and water conservation.  
                         American Society of Agronomy Journal. v. 23. p. 357 -  
                         71. May, 1931
- Bennett, H. H.-    Vermont's anchored hills.    American Forests. v. 35  
                         p. 21 - 34. January, 1929
- Bissell, H. S.-    Water Conservation and flood control - the danger.  
                         California Citrograph. v. 9. p. 4. November, 1923
- Blake, E. E.-      Flood control.    Municipal and County Engineering. v. 72  
                         p. 297 - 304. June, 1927
